Suitable Eats is an online food ordering (delivery and takeaway) as well as a table reservation platform for restaurants based in the UK. In the current era of e-commerce and online ordering, we have launched, Suitable Eats, as an online food delivery platform to bridge the gap between consumers & restaurants, takeaways and local food outlets.

Suitable Eats Merchants, a POS system, comes up with unique and innovative features, to help you manage your restaurant/takeaways in very effective manner to improve sales and increase revenue. The core features included in the Suitable Eats POS system are:

- Manage your profile, services and availability
- Manage categories, items as well as essentials for each of the service
- Manage orders for delivery or collection
- Manage table reservation requests
- Create flash offers, special offers or attractive deals
- Keep an eye on your business through transaction reports and business analysis
- Easy to use interface with smooth user experience
